

Session Program

5-8 Oct 2020

The 29th International Workshop on Vertex Detectors

Poster I

Monday 5 October

23:30

Poster I

Session | **Location:** Vertex2020 will be held virtually | **Convener:** Kazuhiko Hara

23:30–23:35

[P01] Investigation of nitrogen enriched silicon detectors

Speaker

Jan Cedric Honig

23:35–23:40

[P02] A Study for Hit-time Reconstruction of Belle II Silicon Vertex Detector

Speaker

Yuma Uematsu

23:40–23:45

[P03] Particle identification in Belle II silicon vertex detector

Speaker

Sagar Hazra

23:45–23:50

[P04] The CLICTD monolithic CMOS sensor

Speaker

Katharina Dort

23:50–23:55

[P05] Development of the thin and fine-pitch silicon strip detector aiming for the Belle II upgrade

Speaker

Katsuro Nakamura

23:55
