

**Session Program**

5-8 Oct 2020

**The 29th International Workshop on Vertex  
Detectors**

***Current Detectors I***

# Monday 5 October

20:15

## Current Detectors I

**Session** | **Location:** Vertex2020 will be held virtually | **Conveners:** Kazuhiko Hara, Paula Collins

20:15–20:45

### **[A01] Operational Experience and Performance with the ATLAS Inner Detector at the Large Hadron Collider at CERN**

**Speaker**

Yosuke Takubo

20:45–21:15

### **[A02] Operational Experience and Performance of the Belle II Pixel Detector**

**Speaker**

Qingyuan Liu

21:15–21:45

### **[A03] The Belle II Silicon Vertex Detector: Performance and Operational Experience in the first year of data taking**

**Speaker**

Giuliana Rizzo

21:45
