

**Session Program**

5-8 Oct 2020

**The 29th International Workshop on Vertex  
Detectors**

***Monolithic II***

# Wednesday 7 October

22:00

## Monolithic II

**Session** | **Location:** Vertex2020 will be held virtually | **Conveners:** Lars Eklund, Koji Hara

22:00–22:30

### [C05] Muon Forward Tracker: a new ALICE upgrade at forward rapidities for LHC Run 3

**Speaker**

Guillaume Batigne

22:30–23:00

### [C06] Smart Three-Dimensional (3D) Chip Stacking Process for Detectors using High Energy Physics Experiments

**Speaker**

Ikuo Kurachi

23:00–23:30

### [C07] The novel ALICE Inner Tracking System based on truly cylindrical, wafer-scale Monolithic Active Pixel Sensors

**Speaker**

Miljenko Suljic

23:30–23:59

### [C08] MuPix10: First Results from the Final Design

**Speaker**

Heiko Christian Augustin

23:59
