

14th International Conference on Hypernuclear and Strange Particle Physics - HYP2022

Monday, 27 June 2022

1: Mon-IV (17:00 - 18:40)

-Conveners: Àngels Ramos

time	[id] title	presenter
17:00	[124] KN interaction, p-wave terms	Dr FEIJOO ALIAU, Albert
17:20	[53] $\Lambda(1405)$ mediated triangle singularity in the $K^- d \rightarrow p \Sigma^-$ reaction	OSET, Eulogio
17:40	[90] The study of $\pi\Sigma$ photoproduction in the $\Lambda^*(1405)$ region	CIEPLY, Ales
17:55	[95] Four-body Faddeev-type calculation of the KNNN system	SHEVCHENKO, Nina V.
18:10	[93] Search for the KNNN bound state in the Λn final states of the in-flight K^- reaction on helium-4	HASHIMOTO, Tadashi
18:25	[110] Meson-baryon scattering and $\Lambda(1405)$ in resummed baryon chiral perturbation theory	Dr REN, Xiu-lei
