

Session Program

27 June 2022 to 1 July 2022

**14th International Conference on
Hypernuclear and Strange Particle Physics -
HYP2022**

3; Wed-III

Prague, Czech Republic
Prague, Czech Republic

Wednesday 29 June

14:30

3; Wed-III

Session | Location: Hotel Pyramida | Convener: Benjamin Donigus

14:30-14:55

Results of hyperon-nucleon and hyperon-nucleon-nucleon interaction studies via femtoscopy carried out at ALICE

Speaker

Dimitar Lubomirov Mihaylov

Location

Hotel Pyramida

14:55-15:20

Strange hadron correlations in Heavy Ion Collisions at RHIC energies and below

Speaker

Hanna Zbroszczyk

Location

Hotel Pyramida

15:20-15:45

Review of strangeness physics programme at HADES - past and future perspectives

Speaker

Rafał Lalik

Location

Hotel Pyramida

15:45-16:00

Extending strong-interaction studies to nuclei with ALICE: measurement of proton-deuteron, kaon-deuteron, and Lambda-deuteron correlations in pp collisions at $\sqrt{s} = 13$ TeV

Speaker

Mr Bhawani Singh

Location

Hotel Pyramida

16:00-16:15

Femtoscopic measurements of two-kaons combinations in Au+Au collisions at the STAR experiment

Speaker

Diana Pawłowska

Location

Hotel Pyramida

16:15
