- 6:00 am – 9:00 am West Coast
- 9:00 am – noon East Coast
- 3 pm – 6 pm CERN

Schedule

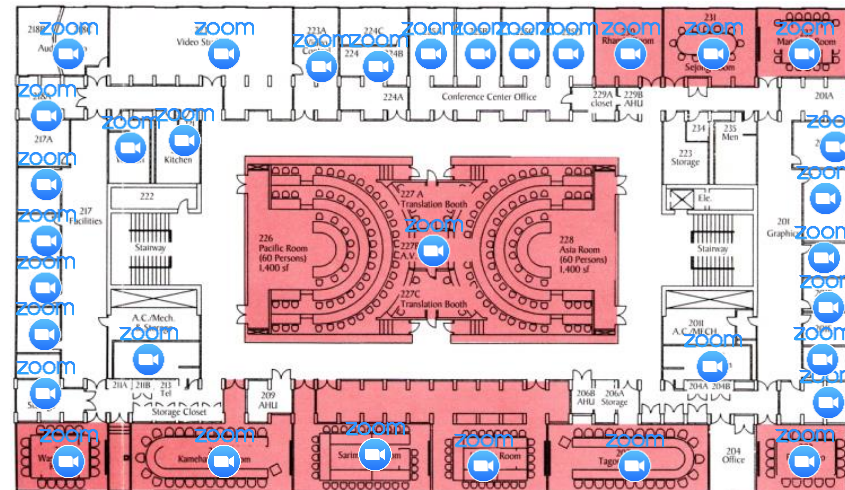

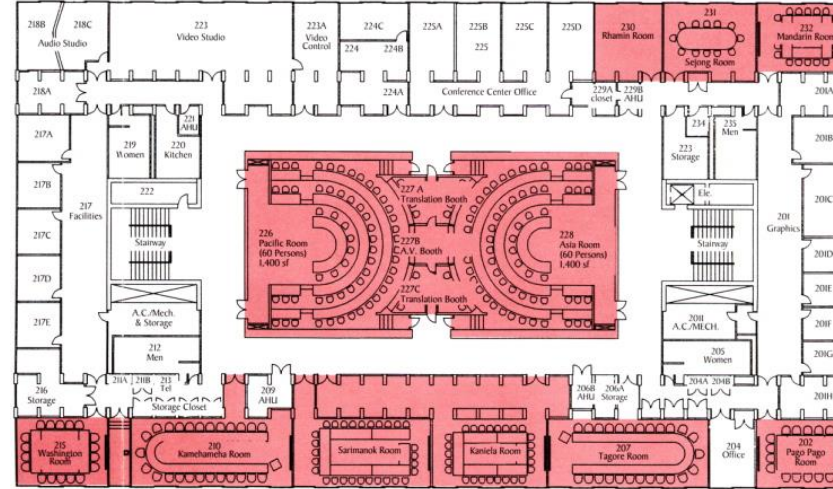

Time slots are scheduled:
- 6:00 am – 9:00 am West Coast
- 9:00 am – noon East Coast
- 3 pm – 6 pm CERN

If you don't have an account:
- Likely someone in your group does have one
- Contact Rob Tuck, our PM (rctuck@princeton.edu)

Google Doc folder to archive minutes if you would like
- Everyone on full team should have access

Little Things

Have some sort of random idea to improve IRIS-HEP? Put it in one of the main minute's pages!

Weds Minutes

Website Ideas

Perhaps collect some website improvement ideas here?

- How to mark a person as a former member
- How to mark a project as "done" or "retired" - some other state rather than "active"
- Automatically associate talks on a project topic with the project webpage, same for publications, so the project pages are automatically populated

Wednesday Discussions

(and Thursday IA)

Individual Projects and how they fit into IRIS-HEP

Fill out the per-project spreadsheet as homework
- What are the ideas for evolving it for Year 3 – milestones (internal, NSF)
- Goals for Year 4 & 5?
- Please look at web page, is it up-to-date? If not, please submit a PR!
- Please have this done by Weds of next week (nagging starts!)
- This is not meant to be high overhead!!!!
- Something missing? Add it to the sheet, and then to the site!

Focus-Area Motivated Discussions

See the google docs attached to the agenda for minutes
Feel free to create your own – please make sure they are named in a discoverable way!

Groundwork for the Grand Challenge Discussion on Thursday

Wednesday Discussions

Parallel Discussions: Parallel I: Servicex, Analysis Facilitie (DOMA/AS)

Should this include SSL Brainstorming?

06:00 - 07:20

Parallel Discussions: Parallel III: Open

06:00 - 07:20

Parallel Discussions: Parallel II: func_adl, hep_tables, cabinetry, pyhf

07:40 - 09:00

Parallel Discussions: Parallel IV: Open

07:40 - 09:00

Parallel Discussions: US Operations Programs and IRIS-HEP Discussion
