

Software update

Lorenzo Pezzotti, Iacopo Vivarelli

News

- New cern account (idealdr) created. Password will be sent via email.
- Production of electrons and pions (single particle, 5,10,20,50,100 GeV) for 8 different theta (corresponding to towers 1,11,...,71 of the IDEA geometry) run. Output made available on /eos/home/i/idealdr (or in the cernbox idealdr account).
 - They can be used for studies and to ramp up in looking at the simulation
 - Instructions to access the tuples and details of the tuple variables available on the software [twiki](#).
