## **Benchmarking Working Group: A status report**

*Tuesday, 13 October 2020 17:00 (20 minutes)*

The HEPiX benchmarking working group has been very active in the past months and will present a report of the activities, concentrating on the new developments after the last report. The new candidate benchmark, designed to overcome the HEP-SPEC06 problems is being published. The HEP Benchmarking Suite has been complemented by GPU and Root benchmark.
