

Possible Tasks for NLO MC Group

- Propose, disseminate and maintain NLO MC parameters uniform across the different subgroups and experiments
- Compile and provide prescriptions of NLO MC usage to subgroups and experiments
- Compile and transfer tunes for various NLO MC tools between theorists and experimentalists
- Watch for advancement on higher order calculations NLO MC tools and disseminate them to subgroups and experiments
- Compile, come up with uniform treatment and effectively channel needs and requests from experiments to NLO MC authors
