

CTA Testing Update

Thursday 26 March 2020 14:10 (10 minutes)

ATLAS Testing

- ATLAS SFO test debrief (Julien)
- Simultaneously run our own write/recall/delete tests on the instance
- Test dual-copy tape pools
- Tier-1 export test
- “What happens when the buffer is full” test

ALICE Testing

- Steve says the Garbage Collector will be ready for testing from next week. Next steps?

CMS Testing

- Julien has been working on test specifications.

Public Testing

- Are we seeing any traffic from nTOF or NA62?
