

<center>Symposium for the Inauguration of the LHC Cryogenics</center>

Friday, June 1, 2007

Session 3: LHC cryogenics II: Operation and control: LHC accelerator cryogenics (9:00 AM - 10:00 AM)

| time | [id] title | presenter |
|---------|--|-----------------------|
| 9:00 AM | [17] Coping with transients | SERIO, Luigi |
| 9:20 AM | [18] Spot: Quench relief valves: Challenge and perspective | COUTURIER, Raphaël |
| 9:25 AM | [19] Spot: Quench in magnet strings | CHOROWSKI, Maciej |
| 9:35 AM | [20] Instrumentation and controls challenges | CASAS-CUBILLOS, Juan |
| 9:55 AM | [21] Spot: Calibration of 6000 thermometers | THERMEAU, Jean-Pierre |

Session 3: LHC cryogenics II: Operation and control: LHC experiment cryogenics (10:05 AM - 11:25 AM)

| time | [id] title | presenter |
|----------|---|--------------------|
| 10:05 AM | [22] Transients scenarios for the cryogenic operation of superconducting magnets of LHC experiments | PENGO, Ruggero |
| 10:25 AM | [23] Spot: Flexible transfer lines | SCHIPPL, Klaus |
| 10:35 AM | Coffee break | |
| 11:00 AM | [24] Operation challenges and cryogen management at the LHC | DELIKARIS, Dimitri |
