

<center>Symposium for the Inauguration of the LHC Cryogenics</center>

Thursday 31 May 2007

Session 2: LHC cryogenics I: Refrigeration & Cooling methods: LHC experiment cryogenics (11:05 - 12:30)

time	[id] title	presenter
11:05	[11] Cooling methods of the large superconducting magnets for LHC experiments	PERINIC, Goran
11:25	[12] Spot: Thermosyphon cooling: Challenge and limits	BREDY, Philippe
11:35	[13] Refrigeration for ATLAS and CMS experiments	DELRUELLE, Nicolas
11:55	[14] Spot: CMS cryogenics: Supply of an integrated turn-key system	DAUGUET, Pascale
12:05	[15] Cryogenics for liquid argon calorimeters	FABRE, Caroline
