

## **Session Program**

**11-15 May 2020**

## **Amplitudes Annual Conference**

***Tuesday Afternoon***

Tuesday 12 May

13:15

Tuesday Afternoon

Session | Convener: Andrew McLeod

13:15–13:45

Higher-spin field theory for classical gravitational scattering amplitudes

Speaker

Radu Roiban

13:45–14:15

Spinning Binaries, Effective Theory and Hidden Simplicity

Speaker

Chia-Hsien Shen

14:15–15:00

Break

15:00–15:30

High Loop Higher-Spin Frontier

Speaker

Michele Levi

15:30–16:00

Graviton dominance from extremal black hole scattering

Speaker

Julio Parra-Martinez

16:00–16:30

Entanglement and Conformal Invariance in the Double Copy

Speaker

Clifford Cheung

16:30
