

Session Program

11-15 May 2020

Amplitudes Annual Conference ***Friday Afternoon***

Friday 15 May

13:15

Friday Afternoon

Session | **Convener:** Lance Dixon**13:15-13:45** **Soft gluon factorization at two loops in full color****Speaker**

Kai Yan

13:45-14:15 **A Bounded Bestiary of Calabi-Yau Geometries in Feynman Integrals****Speaker**

Andrew McLeod

14:15-15:00 **Break****15:00-15:30** **Calabi-Yaus for scattering amplitudes from twistor geometry****Speaker**

Cristian Vergu

15:30-16:00 **Stringy corrections from mixing color and kinematics****Speaker**

Laurentiu Rodina

16:00-16:30 **Conformal detectors in and beyond perturbation theory****Speaker**

David Simmons-Duffin

16:30-16:35 **Closing Remarks****Speaker**

Lance Dixon

16:35
