

**ALICE**

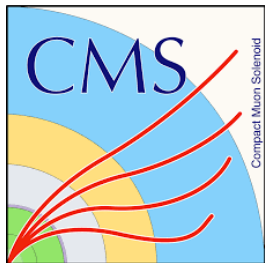

# HONEXCOMB

(Heavy ion experimental combination)

RGdC, GM, IGB, AK

April 28<sup>th</sup> 2020

# Some news

Postdoc hiring at CMS underway...

- Still time to apply
  - <https://inspirehep.net/jobs/1779819>
- Others : stay tuned

Mailing list @ 101 people

- Invite your friends

# Activities

## 1. Legacy and combination

- Charm cross section in pp data
- Twiki: <https://twiki.cern.ch/twiki/bin/view/Honexcomb/HonexcombCharmSection>
- Contacts: Gian-Michele Innocenti (Alice), Jiayin Sun (LHCb)

## 2. Common observables

- Centrality from Glauber
- Multiplicity to be reviewed soon

## 3. Known tensions

## 4. Need for summary plots

- Twiki: <https://twiki.cern.ch/twiki/bin/view/Honexcomb>
- Suggestions most welcome!

# Today

- Theory talk:
  - Anomalous electromagnetic moments of  $\tau$  lepton
