HSF

Training WG

Coordination meeting, July 2

Kilian Lieret[1,2], Sudhir Malik[3], Samuel Meehan[4]

[1] Ludwig Maximilian University of Munich
[2] Excellence Cluster Universe
[3] University of Puerto Rico Mayaguez
[4] CERN

Updating the webpage

- **Previously**: Members of *Web_Site_Managers* team could directly push to master
- **New policy**: Requires PR with at least 1 approval from *Web_Site_Managers* team
- **Problem**:
  - Nobody feels responsible to review PR
  - Slow turn around → Frustrating for small content updates
- **Possible solutions**:
  - Define clearer **responsibilities**, e.g. shifts?
  - Allow active competent developers to **self-merge** content updates (obviously not changes affecting everyone)
  - **Technical** solution:
    - Add Jekyll page build to Travis CI configuration
    - Make Travis ignore outcome of unreliable link checker (just there for reference)
    - Make successful Travis build a sufficient condition to allow merge

Profiles/"floating heads"

Not merged yet, but coming soon: Floating heads for the convenors

Profiles/"floating heads"

Why this?

- Community pages can help to **encourage community contributions** by giving visible credit and showing overall activity of the group
  - indispensable for training
  - perhaps also important for other groups
- Convenor profiles make the group look more approachable; some pages look a bit stale and cold
  - important for all groups
- Code could be generalized and cleaned up to work for other groups as well

Profiles/"floating heads"

How does it work?

- All information of a person is taken from a plain text file that needs to be put in the repository
- Pictures are taken from github or gravatar profile
- Howto: https://hepsoftwarefoundation.org/training/howto-educator-profile.html

---
Hi, I'm Kilian. I'm a PhD student for the Belle II experiment and joined the HSF training group in 2020.
```

Put this in your page to add floating heads of selected people:

```
{% assign persons = "Kilian Lieret, Sudhir Malik, Sam Meehan" | split: ", " %}
{% include list_of_selected_training_people.html %}
```

Thank you.
