

# MPI@LHC 2010: 2nd International Workshop on Multiple Partonic Interactions at the LHC

**Arthur M. Moraes**  
**University of Glasgow**

# Welcome!!!

*"the plan" was for you  
to arrive and find  
Glasgow looking like  
this...*

# Welcome!!!

*this is more like what  
"Mother Nature" had in  
mind though...*

# Many thanks:

▶ To our sponsors:

▶ To the Scientific Committee

▶ To all experimental / theory / phenomenology collaborations who sent representatives

▶ To everyone in the Glasgow PPE group and in the School of Physics & Astronomy who helped in the organization, especially to Valerie Flood.

▶ To the session chairpersons

▶ To all of you!

*Welcome to the first International Workshop on Multiple Partonic Interactions at the LHC "1st MPI@LHC".*

The objective of this first workshop on Multiple Partonic Interactions (MPI) at the LHC is to raise the profile of MPI studies, summarizing the legacy from the older phenomenology at hadronic colliders and favouring further specific contacts between the theory and experimental communities. The

- ▶ LHC data has (finally) arrived!
  - new and exciting results keep showing up!
- ▶ New developments on theory / phenomenology.
- ▶ Potential for establishing new collaborations (exp-th).

## MPI@LHC 2010: 2nd International Workshop on Multiple Partonic Interactions at the LHC

Glasgow, 29th of November to the 3rd of December 2010.

Welcome to MPI@LHC 2010

Welcome to the second International Workshop on Multiple Partonic Interactions at the LHC "2nd MPI@LHC".

The aim of this workshop on Multiple Partonic Interactions (MPI) at the LHC is to provide a forum for the exchange of ideas and information among theorists and experimentalists.
