

## > Human-Machine interaction at Science Gateway an interactive experience engaging visitors to CERN to research and understand how human & machine/technology relate

**Generate  
multidisciplinary research  
on human-machine  
interaction**

**Educate youngsters and  
promote interest in science**

**Incorporate new disciplines  
and collectives**

**1ST PHASE  
2020-2022**

**hands-on experience to  
young visitors**

***“be-a-CERN-engineer  
for-a-day”***  
structured, short conceptual  
prototyping sessions around  
CERN technologies.

**2ND PHASE  
2023-2025**

**interactive experience to  
Science Gateway visitors**

**Science Gateway visitors  
engage in more futuristic,  
multidisciplinary  
experimentation on the  
human-machine/technology  
interaction.**

## > Colaboration with CBI-Network (RCA already expressed interest)
