

THURSDAY, JULY 21 – PROGRAM UPDATES

Plenary 4 – convener: Josef Pradler

Change of ordering: Now the sequence is Cumrum Vafa, Juan de Dios Zornoza Gomez, Dan Hooper

“Scalable inference: Towards dark matter searches in complex data with deep learning” – Christoph Weniger

Title change

Parallel 3C - convener: Pierre Salati

"Reference measurements for indirect dark matter searches with p+C collisions at the NA61/SHINE experiment." - Michal Naskret

Additional Young Scientist Talk (was a poster)

Talk times swapped between

"Dark sector studies with the PADME experiment" - Long Elisabeth now at 17:30

and "Oblique Lessons from the W Mass Measurement at CDFII" - Cari Cesarotti now at 16:50

“The GAPS experiment - a search for light cosmic ray antinuclei” - Tsuguo Aramaki

Additional talk (standing in for Achim Stoessl)

Parallel 3D/B - conveners: 3D: Lesya Shchutska 3B: Anastasia Sokolenko

"Core oscillations in fuzzy dark matter" - Milos Indjin

Talk moved from 3D to 3B
