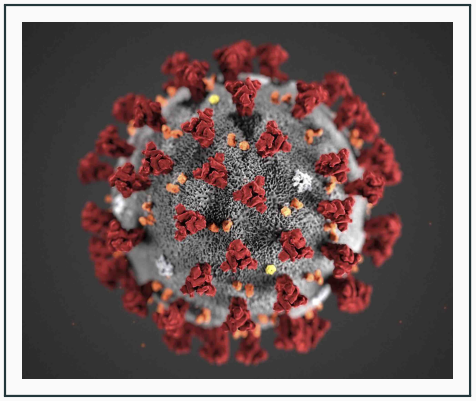
Welcome!

Zooming in on
Axions in the Early Universe

Virtual workshop at CERN from Monday, 22 June 2020 to Friday, 26 June 2020

https://indico.cern.ch/event/923834
https://cern.zoom.us/j/7930190483
https://mattermost.web.cern.ch/axions

Why a virtual workshop?



We are here because of the worldwide COVID-19 pandemic. No reason to be happy ...

Always look on the bright side. Maybe we can learn a few things during and from the crisis.

Advantages of a virtual workshop:

- Hundreds of participants from around the globe, no visa issues, ...
- Hundreds of tons less CO2 emitted; pathway to more sustainability
- No travel cost; more flexibility, accessibility, inclusion, diversity

---

This workshop is a big experiment! Let us know how you like it.

Workshop program

Axions

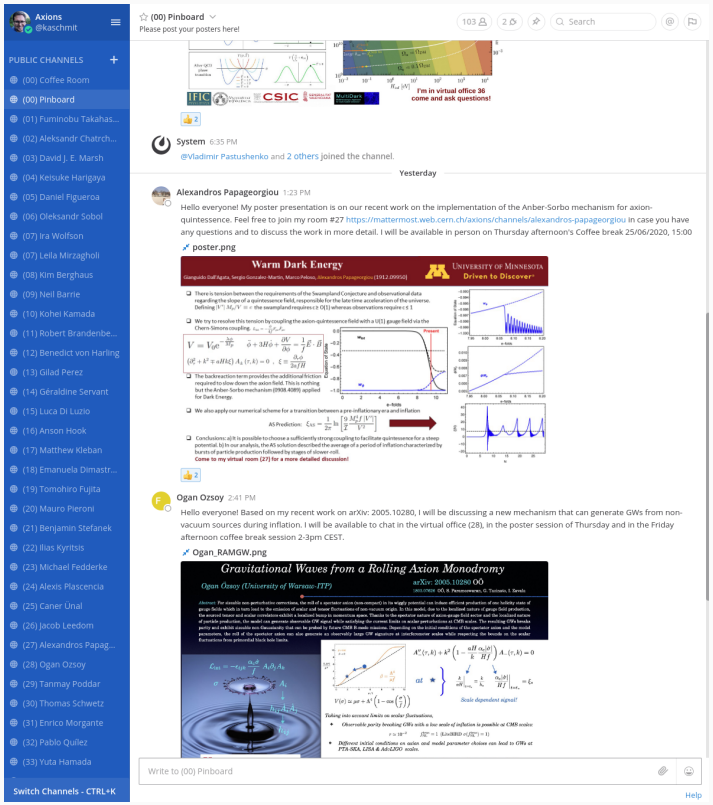
+ Dark Matter	(Monday)
+ Gauge Fields	(Tuesday)
+ Baryogenesis	(Wednesday)
+ Naturalness	(Thursday)
+ Gravitational Waves	(Friday)

- 20 talks + XENON1T Seminar + TH Colloquium + BSM Forum
- At least 18 poster presentations (there are still free slots on Friday!)
- More detailed follow-up presentations during the virtual coffee breaks
- Virtual Axion Institute on Mattermost

https://indico.cern.ch/event/923834 https://mattermost.web.cern.ch/axions

Virtual Axion Institute

Morning and afternoon coffees in the Virtual Axion Institute

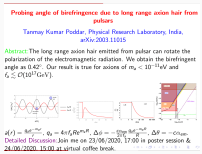


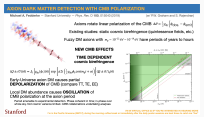
- Dedicated CERN-hosted Mattermost workspace
- Coffee Room: announcements and general discussion
- Pinboard: Beautiful posters, announcements by presenters
- Virtual guest offices for all speakers and poster presenters

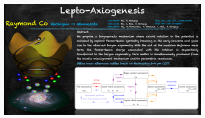
Please join if you haven't done so already!

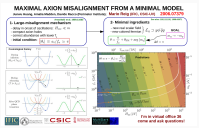
Invite link: see email from Sunday

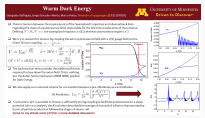
Poster sessions

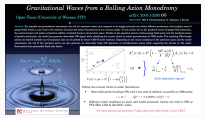


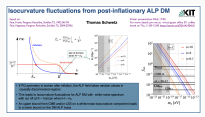












Advertising your work on axions in the early Universe in five steps:

1. Prepare your poster: one slide (maybe with a smaller font, etc.)
2. Post your poster on the pinboard and in your virtual guest office.
3. Present your poster in one of our poster sessions in ~ 10 minutes.
4. Announce a follow-up presentation in your virtual guest office.
5. Give a more detailed presentation during one of the coffee breaks.
