

WLCG Jamboree – Agenda for Day 3

Amsterdam, June 2010

Agenda

- Problem statement recap (Kors) – 30'
- Technology Ruminations (Bernd) – 15'
- Targets for London and Beyond (Jamie) – 15'
- Short presentations of proposed demonstrators – 90'
- Discussion points & Close (Ian) – 30'

Targets for London and Beyond

- We need to see details such as:
 - A plan – including resource needs;
 - Milestones & Metrics
 - Important to compare with existing solutions and future needs
- Update expected on the above at WLCG workshop in July, with regular updates at e.g. GDBs;
 - Tracking: a wiki could be a convenient way of making progress visible within the team and to interested parties
 - Some “conclusion” – or at least check-point – before end 2010 seen as essential
- The time available – assuming a “STEP’12” and eventual rerun June / Sep 2010 – is very tight!
- Little more than ONE YEAR from target end-2010 check-point and STEP’12 preparations!
