# Despite 2020...

*It was different than we imagined, but it still great nonetheless*

We'd like to acknowledge the support of the SMU Dedman College Interdisciplinary Institute (Klarisa Cloward) and the SMU Office of Information Technology (Faye Walter)

A huge thank you to the local organizing community:

**Rohin Narayan, Tom Coan, Elizabeth Fielding**

And especially **Allison Deiana** who kept us on schedule and on task despite the challenging and ever-changing conditions of this year

# More thanks to...

- the session chairs and tutorial organizers
- the speakers for interesting and accessible talks for a very broad audience and the lightning round speakers for producing excellent talks for a challenging format
- the audience for engaging in discussion during and after talks to further the exchange of ideas

Hopefully we will see each other in person next year!
