# CERN IT Department
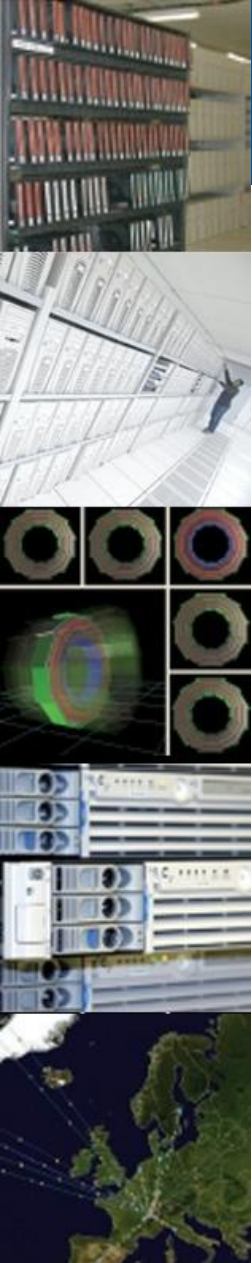

Service Infrastructure

EMI Kickoff Meeting

Mandate

- Include middleware services and components that provide common information and management functionality to deployed Grid services.

- …

- This area also deals with internal infrastructure components, such as service containers that are required for middleware services.
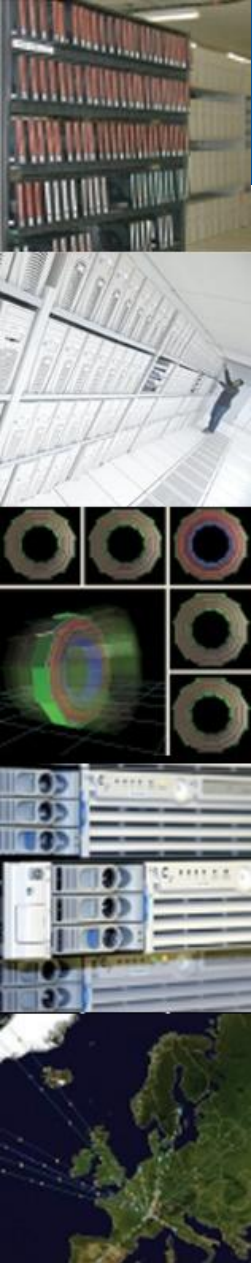

Partners

- CERN
- CESNET
- INFN
- STFC
- FZJ
- UWAR
- LU
- NIIF
- ASCG

Main services and components

- APEL

- BDII

- DGAS

- L&B

- Service Discovery

- UNICORE Service Registry

- HED

- Grid Monitor

- Libarcclient service discovery

Product Teams

- Information Services

- Messaging

- Service Monitoring and Management

- Logging and Bookkeeping

- Accounting

- Virtualization and Clouds

Information Sharing

- Who thinks they've been funded to work in this area ?

- Who thinks they are a product team leader?

- Does anyone think they're in some other product team in this area?

- Who thinks they are contributing unfunded effort in this area ?
