GENHET

(Gender in High Energy Theory)

GenHET is a permanent working group hosted by the CERN Theory Department, whose main objectives are to monitor the situation of women in High Energy Theoretical Physics, increase the awareness of gender issues in the field, improve the visibility and presence of women in decision making roles and providing networking, support and mentoring, particularly to early career researchers.

The group is open to all researchers in High Energy Theory, irrespective of their gender, across all career stages and nationalities. Interested researchers are welcome to subscribe and propose new ideas and initiatives.
