Institute on High Energy Physics (HEPHY)
Austria

- HEPHY is Austria’s largest particle physics laboratory with contributions to CMS, Belle and Dark Matter
- strong relations to the Technische Universität Wien
- long-standing expertise in silicon detector development
- no expertise in accelerator development
  - interest in detector / physics studies
  - supervision of Austrian students at CERN
- People@HEPHY interested in Muon Collider
  - Master Student
    (start September 2020 at CERN - full time muon collider studies)
  - Jochen Schieck
  - Christoph Schwanda
