Thursday 28 October

15:00

Discussion on interpolation from pp data @ 7TeV to pp @ 2.75 TeV

Session | **Location:** Nantes, Cité des Congrès <http://www.lacite-nantes.com/uk/contact.php>

15:00–15:30 Interpolation of quarkonia calculations at LHC

Speaker

Jean-Philippe Lansberg

15:35–16:05 Interpolation of FONLL predictions for c and b at LHC

Speaker

Matteo Cacciari

16:10–16:40 Pt extrapolation to LHC energies

Speaker

Alessandro De Falco

16:40–17:00 Coffee break

17:00–17:30 Rescaling of J/psi cross section from 7 to 2.75 TeV

Speaker

Martino Gagliardi

17:30–18:00 Phenomenological interpolation

Speaker

Zaida Conesa Del Valle

18:00–18:20 Comments on p-Pb

Speaker

Raphael Granier De Cassagnac

18:20–19:00 Discussion

19:20
