

# 1st DITANET Topical Workshop on Low Current, Low Energy Beam Diagnostics

## Wednesday, 25 November 2009

**Session 7: Special devices II. Chairman: C. Welsch (14:00 - 16:20)**

time	[id] title	presenter
14:00	[24] Low current BPMs for CSR	LAUX, Felix
14:20	[25] A pepper pot emittance device for 8 keV/u ion beams - general layout and investigations on the screen material	RIPERT, Marion
14:40	[26] Various beams for RBS at IFIN-HH	SCHUBERT, Hermann
15:00	[27] The SQUID based Cryogenic Current Comparator - A useful tool for beam diagnostics	VODEL, Wolfgang
15:40	[28] CCC for FAIR (including some CSR results)	SCHWICKERT, Marcus
