Work ... think ... learn ... ask ...

Monday, 27 July 2020 16:00 (3 hours)

Spend the day working through the recorded lessons and discussing on the mattermost. We will have no formal in person gathering. If you find that the material feels easy and you understand things, then dig into the “Advanced Lessons” panel on the main page that provides some guidance for specific experiments. Or spend some time thinking of questions to bring to the hands-on session.
