## How I Learned to Stop Worrying and Love the HTCondor-CE

*Wednesday, September 23, 2020 4:05 PM (20 minutes)*

This contribution provides firsthand experience of adopting HTCondor-CE at German WLCG sites DESY and KIT. Covering two sites plus a remote setup for RWTH Aachen, we share our lessons learned in pushing HTCondor-CE to production. With a comprehensive recap from technical setup, a detour to surviving the ecosystem and accounting, to the practical Dos and Donts, this contribution is suitable for all people that are considering, struggling or already successful in adopting HTCondor-CE as well.

### Desired slot length

### Speaker release

Yes
