

UNIVERSITY OF GRAZ

- Since September last year [Denes Sexty](#) is our new colleague (on a “Qualifizierungsstelle”).
 - lattice field theory - complex Langevin equation approach
- [Axel Maas](#) participating in the “Dark Matter” Research Group (since ≈1 year)
 - [Suchita Kulkarni](#) joined in 09/2020 & leads a project within this Research group
- new Lise-Meitner fellow since 08/2020: [Ralf-Arno Tripolt](#)
 - Spectral Properties of Strongly-Interacting Matter
- Hiring ongoing for senior scientist position in Axel’s group
- Currently plan to advertisement of the succession of [Wolfgang Schweiger](#) in Summer or Autumnn
 - research area: primarily in theoretical hadron flavour physics with close relation to experiment
- Christof Gatttringer (University of Graz) – FWF president
 - At the moment it is not yet clear how a substitute for Christof Gatttringer’s position will look like.
 - However, as Christof will start as new president of the FWF in 6 weeks we hopefully learn about this in the near future.
