

# Implications of First LHC Data

## Wednesday 11 August 2010

### Soft QCD - Measurements and Monte Carlo Simulations - 32-123 (11:00 - 12:30)

-Conveners: Brent Nelson

| time  | [id] title  | presenter      |
|-------|---|----------------|
| 11:00 | [10] Monte Carlo Tuning with Early Data                                 | HOETH, Hendrik |
| 11:45 | [12] Charged Particle multiplicities in inelastic interactions in ATLAS | EIFERT, Till   |
| 12:00 | [13] Charged Particle multiplicities in inelastic interactions in CMS   | LI, Wei        |

### Soft QCD - Measurements and Monte Carlo Simulations - 32-123 (14:00 - 15:30)

| time  | [id] title  | presenter            |
|-------|---|----------------------|
| 14:00 | [15] Underlying Event and Diffraction With Charged Particles in ATLAS | TOMPKINS, Lauren     |
| 14:15 | [14] Underlying Event Measurements in CMS                             | Mr ZAKARIA, Mohammed |
| 14:30 | [21] CMS Luminosity Measurement                                       | HUNT, Adam Paul      |
| 14:45 | [22] ATLAS Luminosity Measurement                                     | MAETTIG, Stefan      |
