

25th International Conference on Computing in High Energy & Nuclear Physics

Contribution ID: 220

Type: **not specified**

Conference Photo

The group photo of the conference participants will be composed of small but recognizable pictures of people connected to the Zoom meeting with their cameras enabled. The names will be blurred. The final group photo will afterwards be published on the conference website, and possibly in other publications.

- If you want to appear on the group photo, please enable your camera when we will be taking the photo (technically, screenshots of the Zoom gallery view).
- If you prefer not to be included in the group photo, please just keep your camera off.

The screenshots for the group photo will be taken during the dedicated sessions on Tuesday morning (10:30) and afternoon (16:35). If you participate in one of them, there is no need to attend the other.
