

Virtual Conference of the Polish Society on Relativity 2020

Thursday, 24 September 2020

Mixed - classical gravity (17:45 - 19:00)

time	[id] title	presenter
17:45	[53] Shadow of Naked Singularity	DEY, Dipanjan
18:00	[34] BiGONLight: a new tool for light propagation in numerical relativity	GRASSO, Michele
18:15	[65] Self-gravitating tori around black holes: Bifurcation, ergoregions, and geometrical properties	DYBA, Wojciech
18:30	[78] On the canonical energy of weak gravitational fields with a positive cosmological constant	SMOŁKA, Tomasz
18:45	[50] Prospects of Probing Dark Energy with eLISA: Standard versus Null Diagnostics	BARAL, Pratyusava
