

Virtual Conference of the Polish Society on Relativity 2020

Saturday, 26 September 2020

Mixed - extending gravity (17:45 - 19:00)

time	[id] title	presenter
17:45	[20] Asymptotic generalized extended uncertainty principle	WAGNER, Fabian
18:00	[68] Quantum fluctuations of the compact phase space cosmology	CROWE, Sean
18:15	[44] Computable Loop Quantum Gravity	BOTTA, Gioele
18:30	[22] The kinetic gas universe - Lifting the Einstein Vlasov system to the tangent bundle	PFEIFER, Christian
18:45	[47] Hairy black holes and the dark sector influence	KICZEK, Bartłomiej
