

First Results from the LHC and Their Physical Interpretation

Tuesday 19 October 2010 - Thursday 21 October 2010

IHEP, Protvino

Book of Abstracts

Contents

ATLAS Status, operation and performance	1
ATLAS results on QCD	1
CMS Silicon Strip Tracker Operation and Performance	1
CMS track reconstruction and performance during pp collisions at $\sqrt{s}=7$ TeV	1
Closing Address	1
Collective effects in multiparticle production at the LHC	1
Early searches for new physics with the ATLAS detector	1
Exclusive Bc-meson decays at LHC	2
Expected b-quark production at the LHC	2
First ALICE Results	2
First searches for physics beyond the Standard Model at CMS	2
Forward physics at CMS	2
Inclusive production of Ks and Lambda at $\sqrt{s}=0.9$ and 7 TeV	2
Is the LHC to Trigger a Scientific Revolution?	3
J/Psi Physics at ATLAS	3
LHC Machine and Detectors Status	3
Magnetic spectrometer based on the straw operated in vacuum environment	3
Measurement of D-mesons production at LHC with ATLAS	3
Neutral meson spectra measurements in pp collisions at 7 TeV with ALICE	3
Non-perturbative QCD measurements in ATLAS	3
On Early Physics Results from the LHC: Heavy Quarks, Gauge Bosons and Some Relic Stuff	4
Opening Address	4

Performance of the ATLAS Transition Radiation Tracker with Cosmic Rays and First High Energy Collisions at LHC	4
Photon physics in ALICE	4
Prospects for physics with 1 fb^{-1} at CMS	4
Russian Counterpart of LHC — Accelerator Complex U70 of IHEP	4
SM Higgs searches in the early ATLAS data	5
Search for Scalar Leptoquarks Using Events Containing Two Leptons and Two Jets in CMS	5
Status of LHCb	5
Status of the LHC Machine	5
The CMS experiment: status, performance and selected results	5
Top quark physics at CMS	5
W/Z Physics at ATLAS	6
W/Z physics at CMS	6

Morning session / 16

ATLAS Status, operation and performance

Corresponding Author(s): sanya.solodkov@cern.ch

Morning Session / 37

ATLAS results on QCD

Corresponding Author(s): korolkov@ifae.es

Morning session / 17

CMS Silicon Strip Tracker Operation and Performance

Corresponding Author(s): boudoul@ipnl.in2p3.fr

Morning session / 18

CMS track reconstruction and performance during pp collisions at $\sqrt{s}=7$ TeV

Corresponding Author(s): roberto.castello@cern.ch

Evening Session / 48

Closing Address

Corresponding Author(s): nikolai.tyurin@cern.ch

Evening Session / 44

Collective effects in multiparticle production at the LHC

Co-author(s): Nikolai Tyurin ¹

¹ *Institute for High Energy Physics (IHEP)*

Corresponding Author(s): sergey.troshin@cern.ch, nikolai.tyurin@cern.ch

Evening Session / 26

Early searches for new physics with the ATLAS detector

Corresponding Author(s): evgeny.sedykh@cern.ch

Evening Session / 43

Exclusive Bc-meson decays at LHC

Alexey Luchinsky¹ ; Anatoli Likhoded²

¹ *Institute for High Energy Physics, Protvino, Russia*

² *State Res.Center of Russian Feder. Inst.f.High Energy Phys. (IFVE)*

Corresponding Author(s): alexey.luchinsky@ihep.ru, anatoli.likhoded@cern.ch

Morning Session / 40

Expected b-quark production at the LHC

Corresponding Author(s): lidia.smirnova@cern.ch

Evening Session / 23

First ALICE Results

Corresponding Author(s): serguei.sadovski@cern.ch

Evening Session / 25

First searches for physics beyond the Standard Model at CMS

Corresponding Author(s): carmen.diez.pardos@cern.ch

Morning Session / 30

Forward physics at CMS

Corresponding Author(s): andrei.sobol@cern.ch

Morning Session / 31

Inclusive production of Ks and Lambda at sqrt(s)=0.9 and 7 TeV

Corresponding Author(s): mikhail.chapkine@cern.ch

Evening Session / 47

Is the LHC to Trigger a Scientific Revolution?

Corresponding Author(s): vladimir.petrov@cern.ch

Morning Session / 39

J/Psi Physics at ATLAS

Corresponding Author(s): stefania.spagnolo@le.infn.it

Evening Session / 45

LHC Machine and Detectors Status

Morning session / 19

Magnetic spectrometer based on the straw operated in vacuum environment

Corresponding Author(s): iouri.potrebenikov@cern.ch

Evening Session / 42

Measurement of D-mesons production at LHC with ATLAS

Corresponding Author(s): leonid.gladilin@cern.ch

Morning Session / 35

Neutral meson spectra measurements in pp collisions at 7 TeV with ALICE

Corresponding Author(s): yuri.kharlov@cern.ch

Morning Session / 36

Non-perturbative QCD measurements in ATLAS

Corresponding Author(s): chiara.roda@cern.ch

Evening Session / 46

On Early Physics Results from the LHC: Heavy Quarks, Gauge Bosons and Some Relic Stuff

Corresponding Author(s): anatoli.likhoded@cern.ch

Morning session / 12

Opening Address

Corresponding Author(s): nikolai.tyurin@cern.ch

Morning session / 24

Performance of the ATLAS Transition Radiation Tracker with Cosmic Rays and First High Energy Collisions at LHC

Co-author(s): Andrea Bocci¹ ; Fido Dittus¹

¹ CERN

Corresponding Author(s): ruslan.mashinistov@cern.ch, fido.dittus@cern.ch, andrea.bocci@cern.ch

Morning Session / 38

Photon physics in ALICE

Corresponding Author(s): dmitri.peressounko@cern.ch

Morning Session / 29

Prospects for physics with 1 fb^{-1} at CMS

Corresponding Author(s): daniel.francois.teyssier@cern.ch

Morning Session / 33

Russian Counterpart of LHC – Accelerator Complex U70 of IHEP

Corresponding Author(s): sergey.ivanov@ihep.ru

Morning Session / 28

SM Higgs searches in the early ATLAS data

Corresponding Author(s): ilya.tsukerman@cern.ch

Evening Session / 22

Search for Scalar Leptoquarks Using Events Containing Two Leptons and Two Jets in CMS

Corresponding Author(s): mikhail.kirsanov@cern.ch

Evening Session / 15

Status of LHCb

Corresponding Author(s): vanya.belyaev@cern.ch

Morning session / 13

Status of the LHC Machine

Corresponding Author(s): walter.venturini@cern.ch

Morning session / 14

The CMS experiment: status, performance and selected results

Corresponding Author(s): manfred.jeitler@cern.ch

Evening Session / 41

Top quark physics at CMS

Corresponding Author(s): sluca@ifca.unican.es

Evening Session / 20

W/Z Physics at ATLAS

Corresponding Author(s): jose.enrique.garcia@cern.ch

Evening Session / 21

W/Z physics at CMS

Corresponding Author(s): javier.santaolalla.camino@cern.ch
