

30th International Symposium on Lepton Photon Interactions at High Energies

Contribution ID: 32

Type: **Poster**

Studies of charmonium decay from BESIII

Monday 10 January 2022 16:29 (1 minute)

We shall report recent measurements of branching fractions of J/ψ , χ_{cJ} or $\psi(2S)$ decays. It will contain the following studies: branching fraction of $\psi(2S) \rightarrow \Sigma^+ \text{anti-Lambda} + \text{c.c.}$, inclusive branching fraction of $\psi(2S) \rightarrow K_s + \text{anything}$, observation of $\chi_{cJ} \rightarrow n K_s \text{ anti-Lambda}$, branching fraction of J/ψ and $\psi(2S) \rightarrow \Sigma^+ \text{ anti-Sigma}^-$.
