

30th International Symposium on Lepton Photon Interactions at High Energies

Contribution ID: 245

Type: **Parallel session talk**

Multiboson measurements at CMS

Wednesday 12 January 2022 11:40 (20 minutes)

This talk reviews recent measurements of multiboson production using CMS data. Inclusive and differential cross sections are measured using several kinematic observables. This talk also discussed recent vector boson scattering measurements.

Authors: GOERLACH, Ulrich (Centre National de la Recherche Scientifique (FR)); CMS

Presenter: HAKIMI, Alexandre (Centre National de la Recherche Scientifique (FR))

Session Classification: Precision SM Measurements

Track Classification: Standard Model
