

# 30th International Symposium on Lepton Photon Interactions at High Energies

**Monday, January 10, 2022 - Friday, January 14, 2022**

**Online only**

## **Scientific Program**

Below is the list of parallel tracks, all of which will also feature in the plenary programme of the conference. The scientific programme will run each day from 8:15 until 19:00 GMT.

The plenary sessions will be:

Monday am+pm  
Tuesday am  
Wednesday pm  
Thursday am+pm  
Friday am+pm

The parallel sessions will be:

Tuesday pm  
Wednesday am

The poster sessions are Monday afternoon and Tuesday morning for 1h each.

## **Equality, Diversity, and Inclusion**

### **Standard Model**

This track covers the electroweak, Higgs and top sector, high-pT and low-pT (hadrons), and heavy ion physics.

### **Beyond the Standard Model**

### **Flavour**

This track covers quark and charged lepton flavour

### **Neutrinos**

### **Dark Matter**

### **Gravitational waves and multi-messenger signatures**

## **R&D**

This track covers R&D in both detectors and software/computing as well as performance of current systems.

## **Future experiments and facilities**

## **Public Engagement and Training**
