

Events with an isolated lepton and missing transverse momentum at H1

Thursday 19 April 2007 09:40 (20 minutes)

Events with an isolated lepton and missing transverse momentum at H1

Primary author: DE BOER, Ytsen (ITEP, H1)

Presenter: DE BOER, Ytsen (ITEP, H1)

Session Classification: Electroweak Measurements (Including Top) and Beyond the Standard Model

Track Classification: Electroweak Measurements (Including Top) and Beyond the Standard Model
