

DIS 2007

Tuesday 17 April 2007

Joint: Structure Functions and Low-x / Diffraction and Vector Mesons: SF-4 / DIFF-4 - Forum 2&3 (16:10 - 18:10)

time	[id] title	presenter
16:10	[72] Saturation model for exclusive processes at HERA, DVCS, F2, including evolution and the impact parameter dependence	KOWALSKI, Henri
16:30	[71] Target mass corrections to deep inelastic diffractive scattering	BLÜMLEIN, Johannes
16:50	[73] Small x gluon from exclusive J/psi production	TEUBNER, Thomas
17:10	[69] Compatibility of phenomenological dipole cross sections with the BK equation	UTERMANN, Andre
17:30	[70] Universality of QCD traveling waves with running coupling	PESCHANSKI, Robert
17:50	[284] Discussion
