

Session Program

22 September 2020

Effective Field Theory in Polarised VBS
Polarisation

Tuesday 22 September

11:00

Polarisation

Session | **Convener:** Verena Maria Walbrecht

11:00–11:30

Longitudinally polarised Same-Sign WW scattering searches with the CMS detector

Speaker

Mr Jie Xiao

11:30–12:00

On the measurements of polarization observables and their application

Speakers

Duc Ninh LE, Duc Ninh Le

12:00–12:30

Polarized weak bosons in $W+W^-$ production at the LHC including NLO QCD effects

Speaker

Giovanni Pelliccioli

12:30–13:00

Discussion

Speaker

Pietro Govoni

13:00
