

Session Program

22 September 2020

Effective Field Theory in Polarised VBS
Polarisation

Tuesday 22 September

14:00

Polarisation

Session | **Convener:** Diogo Buarque Franzosi

14:00–14:30

Methods and challenges in CMS top polarisation measurement

Speakers

Afiq Aizuddin Anuar, Alexander Josef Grohsjean

14:30–15:00

Measuring the polarization of boosted, hadronic W bosons with jet substructure observables

Speakers

Songshaptak De, Songshaptak De

15:00–15:30

Extracting polarisation fractions with the use of DNN neutrino reconstruction techniques in VBS

Speaker

Jakob Novak

15:30
