What is the problem I am trying to solve?

1. No coherent architecture to cern.ch

2. Search does not work

3. CERN does not have a website

What is the problem I am trying to solve?

Bad URLs

Duplication of data

Content 'locked'

Cannot manage design

Navigation and search

What is my idea of content management and what can it do for me?

Publish in one place, reuse in many

Manage design separately from content

Navigation

Filtering

Versioning

Multilingual support

Workflow

…

What are my constraints in terms of existing content, systems?

CDS – Images, videos, downloads

Indico – Events

Archiving

Authentication

What do I expect from the CERN infrastructure, and what can I do?

Templates / themes

APIs, integration

Drupal (or similar) service

LAMP stack
