

## **Session Program**

**8-10 Jul 2010**

### **Fourth Workshop on Data Preservation and Long Term Analysis in HEP**

***Session extended to other fields:  
astrophysics, distributed computing, generic  
digital preservation programs etc.***

KEK, 3 gokan seminar hall (K03)

## Thursday 8 July

14:00

**Session extended to other fields: astrophysics, distributed computing, generic digital preservation programs etc.**

**Session** | **Location:** KEK, 6-2-004

14:00-14:40

### Introduction and workshop organization

#### Speakers

Cristinel Diaconu, Homer Neal

14:40-15:20

### ATLAS analysis and computing in Japan

#### Speaker

Hiroshi Sakamoto

15:20-16:00

### B-factories Legacy Book

#### Speaker

Prof. Bostjan Golob

16:00-16:30

### Break

16:30-17:00

### Cloud computing in HEP: the Belle experience

#### Speaker

Martin Sevier

17:00-17:30

### Digital Preservation in libraries and engineering

#### Speaker

Dr Adil Hasan

17:30-18:00

### InSpire

#### Speaker

Travis Brooks

18:30
