

LLP and neutrino mass models

Monday, November 9, 2020 8:55 PM (10 minutes)

In this talk I will discuss the connection of different neutrino mass models with long-lived particles (LLPs). We will also discuss the prospects of the LHC and several recent experimental proposals to search for these LLPs.

Primary authors: Dr HELO, juan carlos (Universidad de La Serena); HIRSCH, Martin (Instituto de Fisica Corpuscular (CSIC, University of Valencia))

Presenter: Dr HELO, juan carlos (Universidad de La Serena)

Session Classification: Long-Lived Particles
