

HP2.3rd - The 3rd International Workshop on High Precision for Hard Processes at the LHC

Tuesday 14 September 2010

Morning I (09:30 - 10:30)

-Conveners: Massimiliano Grazzini

| time | [id] title | presenter |
|-------|--|-----------------------|
| 09:30 | [42] Vector-Boson + Multi-Jet Production with BlackHat | KOSOWER, David |
| 10:00 | [4] NLO calculations with SAMURAI | TRAMONTANO, Francesco |

Wednesday 15 September 2010

Morning I (09:30 - 10:30)

-Conveners: Ruth Britto

| time | [id] title | presenter |
|-------|--|--------------------|
| 09:30 | [10] Massive Quarks in Vincia | RITZMANN, Mathias |
| 10:00 | [22] Bound-state effects on top-quarks kinematical distributions at hadron colliders | Dr YOKOYA, Hiroshi |

Thursday 16 September 2010

Morning I (09:30 - 10:30)

-Conveners: Aude Gehrmann-De Ridder

| time | [id] title | presenter |
|-------|--|---------------------|
| 09:30 | [13] Threshold resummation of 1/N-suppressed QCD quantities via mass factorization | Prof. VOGT, Andreas |
| 10:00 | [6] Event shapes at hadron colliders | BANFI, Andrea |

Friday 17 September 2010

Morning I (09:30 - 10:45)

-Conveners: Yukinari Sumino

| time | [id] title | presenter |
|-------|---|-----------------------------|
| 09:30 | [49] Status of BSM | BARBIERI, Riccardo |
| 10:15 | [14] Precise Higgs boson masses in the MSSM | Prof. STEINHAUSER, Matthias |
