Panel Discussion: The next steps following the European Strategy Recommendations

Thursday 3 December 2020 14:00 (1h 30m)

This panel aims to discuss the synergies of communication and outreach strategies being developed by different networks, labs and projects, in Europe (after the publication of the recommendations of the European Strategy for Particle Physics) and in the US (as part of Snowmass).

As an international collaboration, IPPOG has great interest in being a platform for this discussion. The goal of the discussion is to identify avenues that may inform future activities of all labs, projects and collaborations involved in the discussion.

Panelists are: Perrine Royole-Degieux (representing EPPCN), Rebecca Thompson (representing Fermilab and reporting discussion from Snowmass), as well as Panagiotis Charitos and Markus Mooslechner (representing communications around the FCC) with Ana Godinho as moderator.

Summary

Presenters: GODINHO, Ana (CERN); MOOSLECHNER, Markus; CHARITOS, Panagiotis (CERN); ROY-OLE-DEGIEUX, Perrine (CNRS); THOMPSON, Rebecca Caroline (Fermi National Accelerator Lab. (US))

Session Classification: IPPOG Session 3: Panel Discussion
