

# ATTRACT-CERN internal project follow-up session

Markus Nordberg (IPT-DI)

December 11, 2020

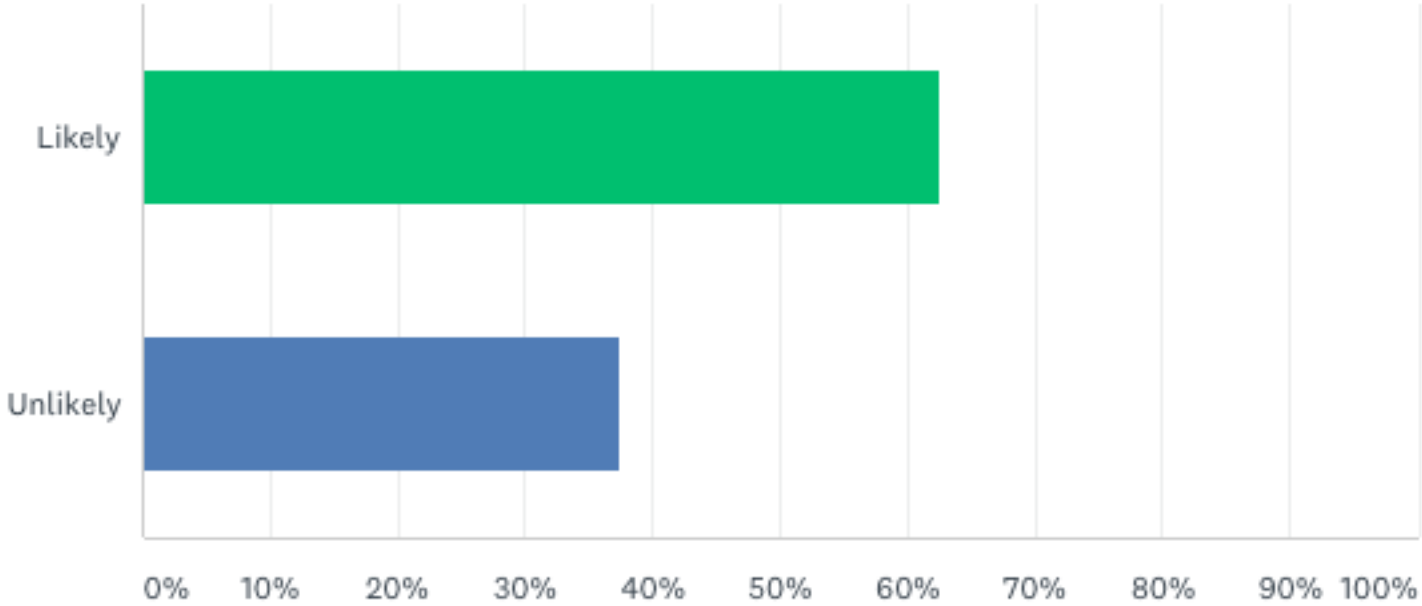

# Introduction

- We would like to thank all projects the good results achieved, despite the drastic effects of the COVID-19.
  - Thank you for filling in the survey (8 projects responded; results anonymous).
- 

# Feedback from the Survey from CERN-ATTRACT Projects

Are you planning to apply for Phase 2?

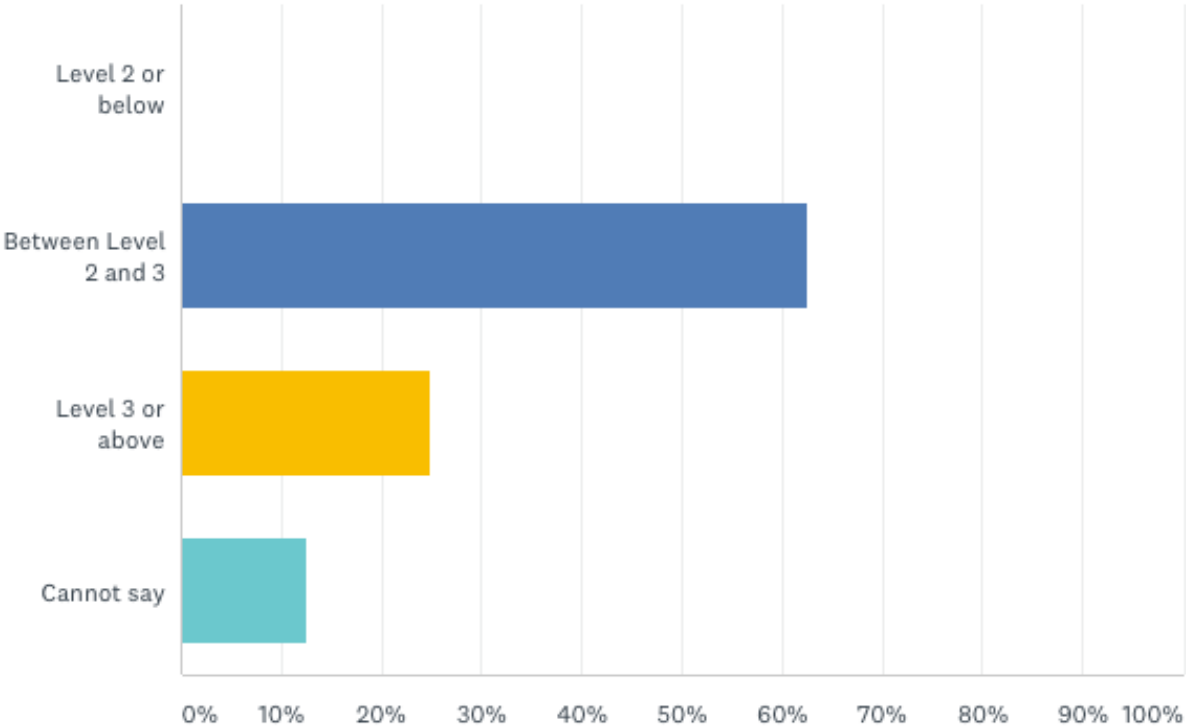

Answered: 8 Skipped: 0

# Feedback from the Survey from CERN-ATTRACT Projects

Projects in ATTRACT Phase 1 should have reached Technology Readiness Level (TRL) 2-3. Compared to the Phase 1 goal(s), how close to TRL 2-3 do you consider reaching by the end of this November?

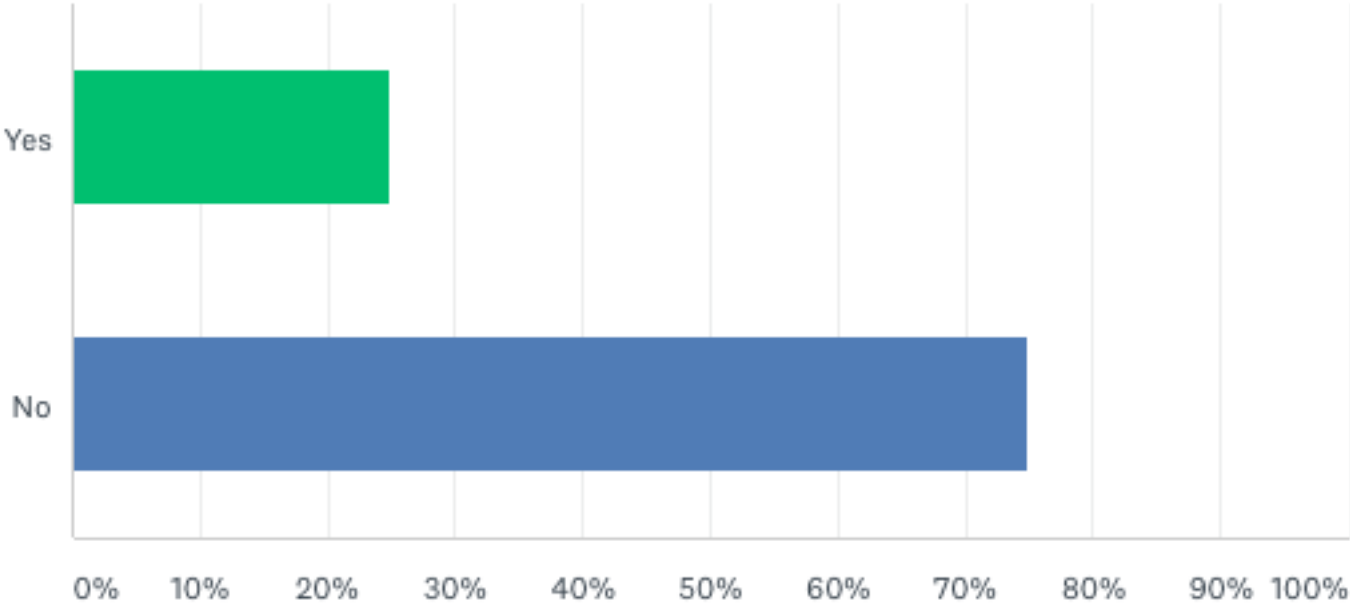

Answered: 8 Skipped: 0

# Feedback from the Survey from CERN-ATTRACT Projects

Did your project engage with MSc student teams in Phase 1?

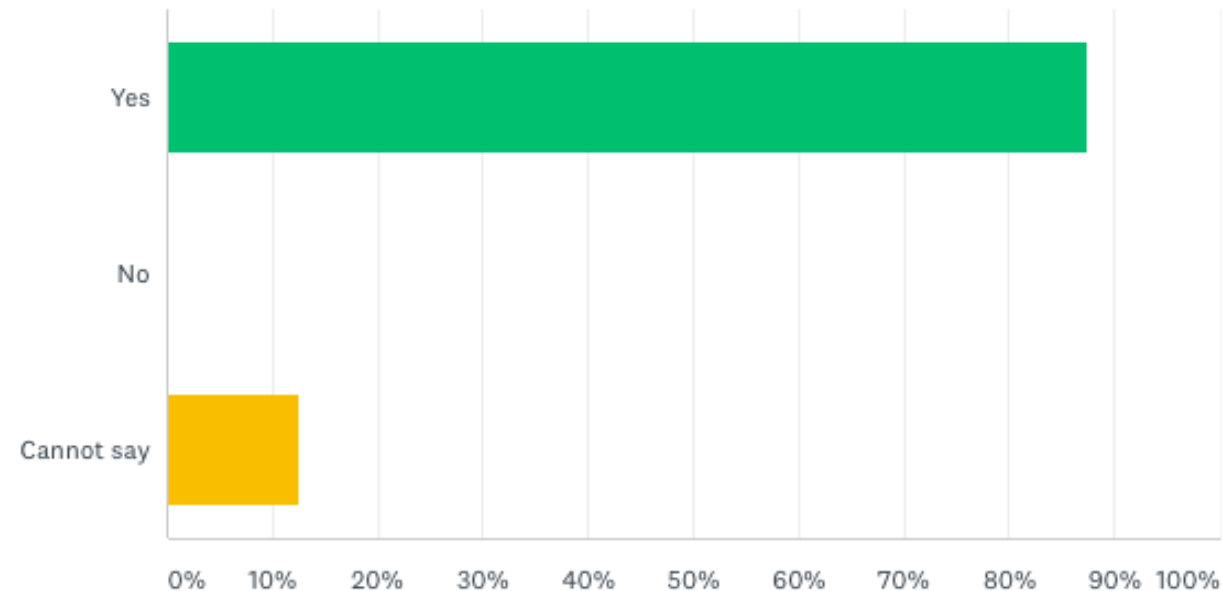

Answered: 8 Skipped: 0

# Feedback from the Survey from CERN-ATTRACT Projects

IdeaSquare will be hosting ca 1/3 of the projects in Phase 2 involving MSc student teams for inspiring them with their technologies and prototype solutions related to social innovation. Would you be interested in IdeaSquare helping you?

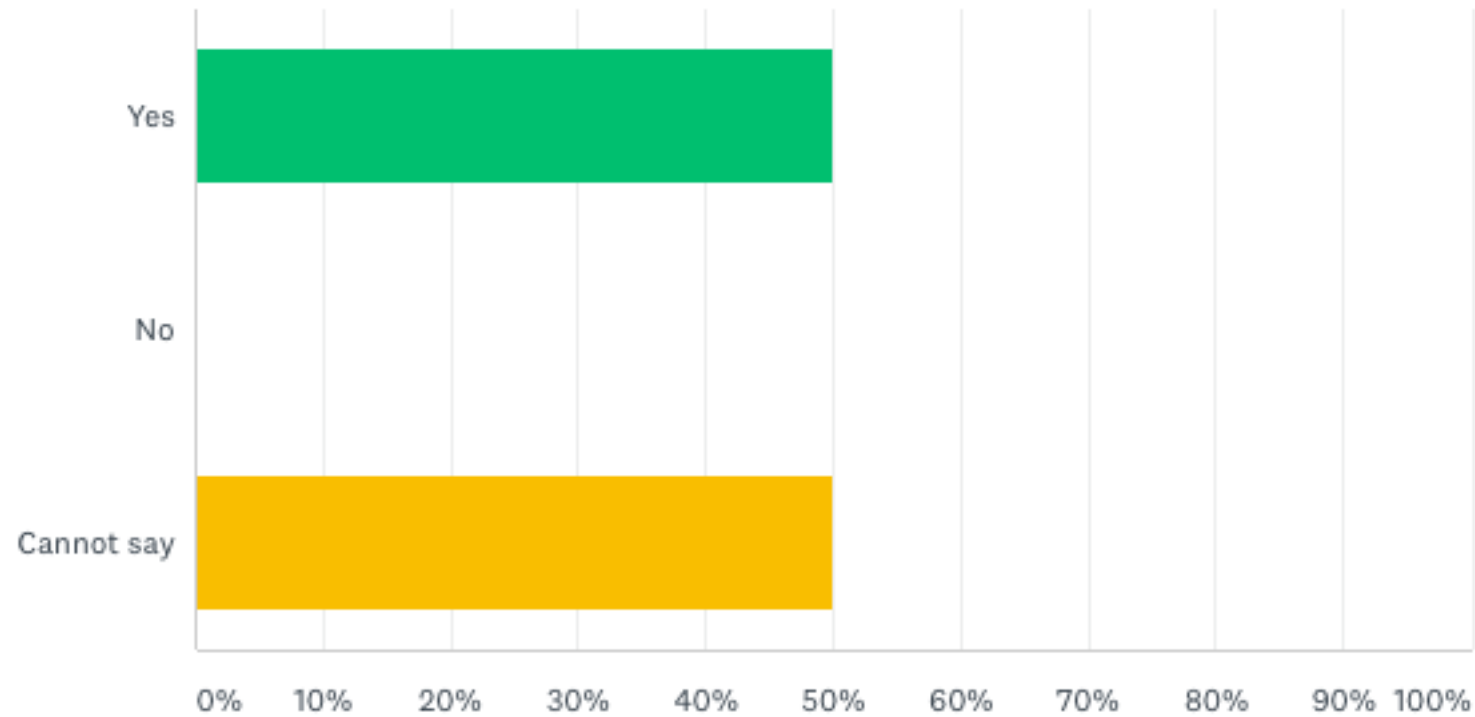

Answered: 8 Skipped: 0

# Feedback from the Survey from CERN-ATTRACT Projects

ATTRACT Phase 2 foresees funding projects reaching TRL 7-8 at the end of it. That will require incorporating (additional) industrial partners in the current consortia. Would you like KT or EU-group to help you?

Answered: 8 Skipped: 0

# Feedback from the Survey from CERN-ATTRACT Projects

Due to admin reasons, Phase 2 projects will be selected only later in 2021. How could CERN meanwhile be best able to help you? Lab space at IdeaSquare? Help from KT?

Answered: 5 Skipped: 3

Will need KT for advice/help with IP questions.  
12/8/2020 7:45 AM [View respondent's answers](#) [Add tags ▾](#)

Without funding the project is going to be hybernated, because of missing person power.  
11/22/2020 9:41 PM [View respondent's answers](#) [Add tags ▾](#)

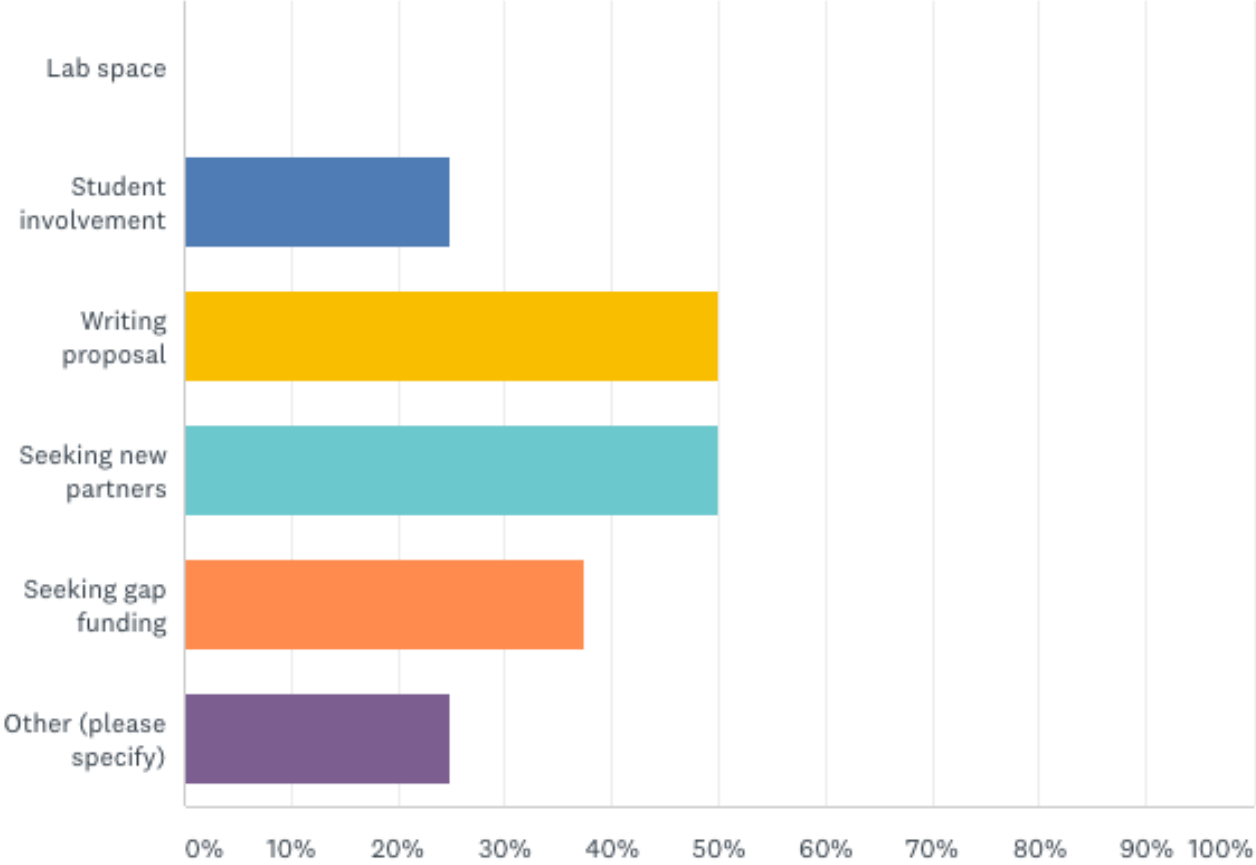

For one project we have KT/MA funds already allocated. For the other we will proceed with a fellow. Access to IdeaSquare would also help

# Feedback from the Survey from CERN-ATTRACT Projects

Would you be interested in getting help to prepare for Phase ?

Answered: 8 Skipped: 0

# Summary

- It remains unclear whether all projects wish to proceed to Phase-2.
- Projects would welcome help from KT and IdeaSquare to provide space; engage students; seeking new partners; writing the applications.
- About one third of the respondents indicate a need for resources to keep going until Phase-2 (mainly manpower).

# How KT & EU Group & IdeaSquare (ID2) wish to help

- Assessing possible new, unforeseen use-cases or ideas for your technologies, with the help of also CBI-like MSc level student teams.
- Seeking possible new partners for your projects and investigate possible ad-interim governance structures (GRADE) and IP questions.
- Offering ID2's rapid prototyping facilities can be used not only by you to test your technology and host the student teams to work on potential, unforeseen societal applications.
- Based on your feedback, discuss with the CERN management how best to keep your projects alive until Phase-2.
- Following this meeting, we will be contacting you individually.

Thanks
