

The study of structural, optical and luminescent properties of topical scintillator materials irradiated by swift heavy ions

Wednesday 30 June 2021 15:45 (15 minutes)

Primary authors: PANKRATOVA, Viktorija (Institute of Solid State Physics, University of Latvia); SKURATOV, Vladimir A. (Joint Institute for Nuclear Research); PANKRATOV, Vladimir (Institute of Solid State Physics, University of Latvia); POPOV, Anatoli I. (Institute of Solid State Physics, University of Latvia)

Presenter: PANKRATOVA, Viktorija (Institute of Solid State Physics, University of Latvia)

Session Classification: Advanced Technologies: Materials

Track Classification: Detectors: CCC
