

**Session Program**

**5-9 Jul 2010**

**ALICE Offline week**

***Grid and Analysis Facilities status &  
experiences***

CERN, 40/S2-D01 - Salle Dirac

# Thursday 8 July

09:00

## Grid and Analysis Facilities status & experiences

**Session** | **Location:** CERN | **Convener:** Martin Vala

### 09:00–09:30 The ALICE Analysis Facilities - introduction and structure

**Speaker**

Martin Vala

### 09:30–10:00 Running analysis tasks

**Speaker**

Arsen Hayrapetyan

### 10:00–10:30 Running on multiple datasets and datasets staging

**Speaker**

Mr Dario Berzano

### 10:30–11:00 Coffee break (tea for Martin please)

### 11:00–11:30 PROOF status and future

**Speaker**

Fons Rademakers

### 11:30–12:00 Dynamic PROOF clusters with PoD: status report and future plans

**Speaker**

Dr Anar Manafov

12:00

14:00

## Grid and Analysis Facilities status & experiences

**Session** | **Location:** CERN | **Conveners:** Costin Grigoras, Pablo Saiz

### 14:00–14:25 GRID operation

**Speaker**

Dr Patricia Mendez Lorenzo

### 14:25–14:50 User job and file quotas

**Speaker**

Pablo Saiz

### 14:50–15:10 AliEn new security architecture and glexec

**Speaker**

Steffen Schreiner

### 15:10–15:35 Running AliEn Secure services

**Speaker**

Jianlin Zhu

### 15:35–16:05 Coffee Break

16:05-16:30

**AliEn catalogue and job management WEB interface; Run Condition Table****Speaker**

Costin Grigoras

16:30-16:55

**Status of setting up CernVM with AliEn****Speaker**

Brynjolv Brynjulvsen

16:55-17:15

**Access to LHC database****Speaker**

Alina Gabriela Grigoras

17:15-17:40

**Xrootd data access - recent directions****Speaker**

Fabrizio Furano

18:10
